

Having a look at the Uganda feature using data sets from Uganda

The tables below represent recording of affected individuals and those granted bail each year

Value	Year	
	2018	Total
10	1	1
117	1	1
28	1	1
46	1	1
Total	4	4

Value	Year	
	2017	Total
*	2	2
17	1	1
27	1	1
44	1	1
Total	5	5

Adapted from Uganda asylum data

After a thorough look through all the records I concluded that each year since 1972 as per available data only one person from Uganda is given asylum per year across the countries an implication of either wrong capture of data or duplication of data capture.

Points on demographics for UNHCR's populations of concern residing in Uganda

- Policies are made on total number of available in records in this case available totals stopped being recorded in 2013 since then records are unavailable
